				4.2 Measuring development		Example	U-tube		
			Webnote 428	**Big Questions:** 1. **Explain the key indicators used to measure development?** 2. **Evaluate the indicators that are used to measure development?**					

Measurement methods

168			Single indicators	• Distinguish between GDP per capita figures and GNI per capita figures. • Compare and contrast the GDP per capita figures and the GNI per capita figures for economically more developed countries and economically less developed countries. • Distinguish between GDP per capita figures and GDP per capita figures at purchasing power parity (PPP) exchange rates. • Compare and contrast GDP per capita figures and GDP per capita figures at purchasing power parity (PPP) exchange rates for economically more developed countries and economically less developed countries. • Compare and contrast two health indicators for economically more developed countries and economically less developed countries. • Compare and contrast two education indicators for economically more developed countries and	**PPP** is covered in section 3.2 under exch. Rates. See item 145 in syllabusSee web **415.**	Example	U-tube	**3**	See web **415**

			economically less developed countries.					
169			Composite indicators	• Explain that composite indicators include more than one measure and so are considered to be better indicators of economic development. • Explain the measures that make up the Human Development Index (HDI). • Compare and contrast the HDI figures for economically more developed countries and economically less developed countries. • Explain why a country's GDP/ GNI per capita global ranking may be lower, or higher, than its HDI global ranking.		<u>Example</u>	<u>U-tube</u>	**3**	
Item	hl	sl	**Must Know**	**Must know very well! Here are the details of what you need to know.**	Reading	<u>Example</u>	<u>U-tube</u>	**W E I G H T**	**W E B N O T E**

TOK

Theory of knowledge: potential connections

What criteria could we use to determine whether a particular method for measuring development is effective?

What knowledge issues might be encountered in constructing a composite indicator to measure development?
