

Development + Population: analysing data

Study Source A Carefully

Study Source F carefully

5 Look at the data in table F.

- a) For each country in the table, suggest which stage in graph A it has reached. Give reasons in each case.
- b) For each country, draw a sketch to show how its population pyramid might look.

Country	Birth rate	Death rate	Infant mortality	Life expectancy
France	13	9	5	78
India	25	9	65	63
USA	15	8	7	77
Zambia	43	18	112	45

F Population data for four countries in 1999
